Lung Cancer Living Room
Women and Lung Cancer Research and Preventive Service Act of 2018
March 20, 2018

Advocating for change in policy and advancing research will improve the health of the entire lung cancer community.

Please join us at this month’s Lung Cancer Living Room to discuss current legislation focusing on accelerated research and preventive screening services for women impacted by lung cancer. We will talk about the specific role patients and caregivers can take to help close knowledge gaps and advance research to address the impact of lung cancer in the U.S.

Panel of Speakers:
Elridge Proctor, MPA Lung Cancer Alliance
Francis Spruit – Survivor and Roslyn Spruit – Caregiver
Emily Taylor – Survivor
Dr. Barbara J. Gitlitz MD-Medical Director Product Development Genentech
